ONE SOURCE

FOR YOUR FLEXIBLE PACKAGING MACHINERY NEEDS

OVERVIEW

The Pro Mach Flexible Group is making it easier than ever to find the perfect solution for your flexible packaging projects!

We are a leading provider of high quality packaging equipment for flexible packaging applications and offer customers a complete flexible packaging equipment line.

BENEFITS

- Nearly 150 years of combined expertise in developing flexible packaging solutions for customers in a variety of industries.
- Large pool of resources with access to service technicians and engineers.
- Seasoned service technicians are cross-trained on all machines to expedite installations and allow one point of contact for troubleshooting.
- Centrally located headquarters with manufacturing, assembly, spare parts inventory, and R&D machine development and design.
- Worldwide machinery installations.
- Spare parts for all machines are available within US locally.
- Technical training workshops hosted by PMMI Certified Trainers.
